

ServiceKit: Ink Fountain

LIFE CYCLE MANAGEMENT

OEM spare parts to meet the high demands of daily operation.

With the Ink Fountain ServiceKit, customers are provided with a clearly defined spare parts package for routine repairs or scheduled preventive replacement. Proactive use of the ServiceKit can prevent unplanned downtime and associated serious consequential equipment damage.

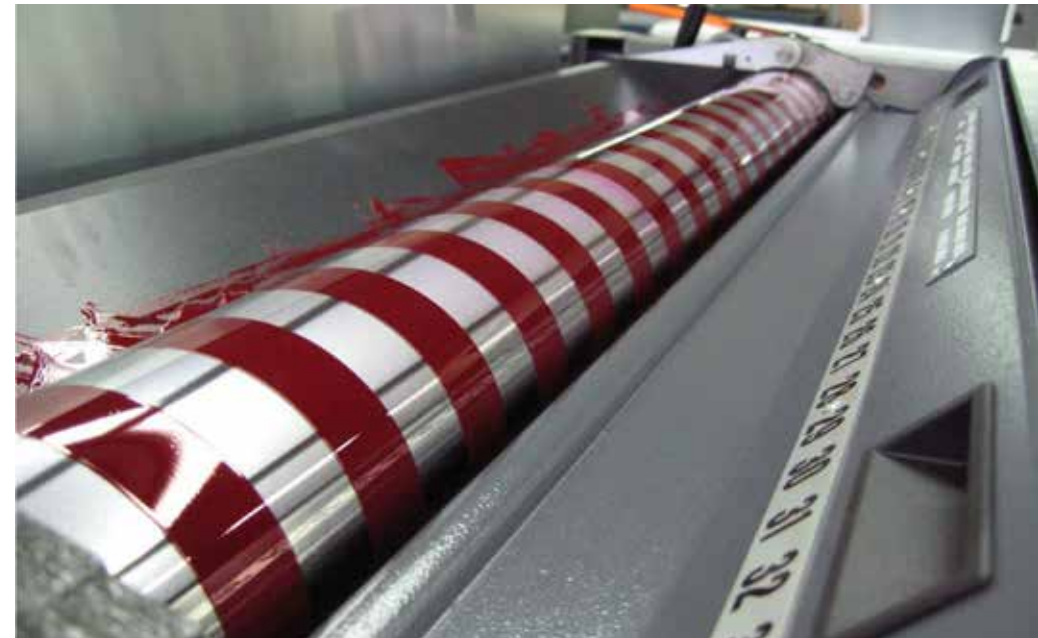

Fixed ServiceKit pricing and set installation times enable customers to accurately budget for costs and schedule planned press downtime. The Ink Fountain ServiceKit minimizes the risk of a breakdown due to undetected excessive wear on individual parts.

Available for:

Roland 200, Roland 500, Roland 700, Roland 700 *EVOLUTION*, Roland 900 and Roland 900XXL
